PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with **3+ years** of experience building modern, scalable web applications. Specialized in real-time systems, telephony platforms (WebRTC, SIP.js, Asterisk), and cloud-native infrastructure using React.js, Node.js, and AWS. Strong capability in building secure, performant solutions from design to production.

WORK EXPERIENCE

Software Developer - *Pulse Telesystems Private Limited* *Apr 2023 – Present*

- Led the backend and frontend development of **ConnectHub**, an enterprise-grade real-time call center platform unifying CRM, live monitoring, user management, and IVR.
- Integrated Asterisk telephony systems with web CRM dashboards using **SIP.js and WebRTC** for direct, clientless softphone communication.
- Engineered real-time dashboard tracking and monitoring systems using **WebSockets, Redis Pub/Sub, and Asterisk AMI**, ensuring instant UI state updates.
- Implemented secure application mechanisms, including **JWT**, Role-Based Access Control (RBAC), and **2FA/MFA** via TOTP.
- Deployed and maintained scalable instances on **AWS (EC2, S3, Lambda, Route 53, API Gateway)**, utilizing Nginx and Apache2 as reverse proxies.
- Collaborated closely with cross-functional teams to build and scale applications using **React.js, Node.js, PHP, MongoDB, and MySQL**.

TECHNICAL SKILLS

Frontend:	React.js, SIP.js, WebRTC, Socket.io, JavaScript, HTML5, CSS3
Backend:	Node.js, Express.js, PHP, Python
Databases:	MongoDB, MySQL, Redis
Cloud & Tools:	AWS (EC2, S3, Lambda, Route 53, API Gateway), Docker, Nginx, Linux, Git

KEY PROJECTS

ConnectHub - *Real-time Call Center Management Platform* *React.js, Node.js, Redis, WebRTC, SIP.js, AWS, WebSockets*

Centralized dashboard with live monitoring of agent status states, queue call tracking, live call barging/listening, and built-in voice dialer. Integrated AMI for direct Asterisk telephony flow management.

Switch Automation System - *Centralized Network Device Management* *Node.js, React.js, MongoDB, WebSocket*

System to streamline network switch administration. Features real-time status tracking, automated backups, task scheduling, and batch configurations.

EDUCATION

Master of Computer Applications (MCA)	Anna University, Tamil Nadu	*2023 – 2024*
Bachelor of Computer Science (BCS)	Madurai Kamaraj University, Tamil Nadu	*2019 – 2022*
